About Women for Women International

In countries affected by conflict and war, Women for Women International supports the most marginalised women to earn and save money, improve health and well-being, influence decisions in their home and community and connect to networks for support.

By utilising skills, knowledge and resources, they are able to create sustainable change for themselves, their families and their communities.

#SheDares Campaign

Around the world, women's rights are on the line. Whether it's our right to speak up against injustice, choose what to wear or decide what happens to our bodies.

But today and throughout history, women have dared to challenge oppression with acts of defiance – even in the most difficult and dangerous circumstances.

Our #SheDares campaign is all about celebrating these courageous women, while raising vital funds for women survivors of war.
